ELECTRONIC

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Notice of the Office communication was sent electronically on above-indicated "Notification Date" to the following e-mail address(es):

Office Action Summary	Application No. 10/578,351	Applicant(s) AOI ET AL.	
	Examiner Jasmine J. Clark	Art Unit 2815	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Information Disclosure Statement

1. The information disclosure statements filed 05/05/2006 and 04/15/2008 have been considered.

Drawings

2. Figures 16(a)-16(e) should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 13 and 26 are rejected under 35 U.S.C. 102(b) as being anticipated by Kawanoue et al. (US 6,229,211).

Kawanoue '211 discloses a semiconductor device comprising: an insulation film (11 and 16) formed on a substrate; a buried wire (14) formed in the insulation film; and a barrier metal film formed between the insulation film and the buried wire, wherein the barrier metal film contains oxygen as a component element, and wherein a concentration of oxygen (inherent) contained in the barrier metal film continuously varies in a film thickness direction of the barrier metal film.

Kawanoue '211 further discloses a method for fabricating a semiconductor device, the method comprising the steps of:

forming a recess portion in an insulation film (see Fig. 11C above, i.e.,) provided on a substrate;

forming a barrier metal film containing oxygen as a component element so that the barrier metal film covers surfaces of the recess portion; and forming a buried wire (17) on the barrier metal film so that the recess portion is filled, wherein the step of forming the barrier metal film includes the step of forming the barrier metal such that a concentration of oxygen contained in the barrier metal film continuously varies in a film thickness direction of the barrier metal film is inherent.

Allowable Subject Matter

4. Claims 1-12, 14-25 are allowed.

The following is an examiner's statement of reasons for allowance: the applied reference fails to teach and/or suggest that the transition layer is being formed of a single or plurality atomic layer(s) including metal oxide and a metal forming the metal film and having substantially an intermediate composition between respective compositions of the metal oxide film and the metal film.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Telephone Inquiry Contacts

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jasmine J. Clark whose telephone number is (571) 272-1726. The examiner can normally be reached on Flex.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ken Parker can be reached on (571) 272-2298. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
